ASSEMBLING THE BASKET

Step 1: With the Basket sitting on the ground, take the Handle, pinch the end hooks of the Handle on one side together, and place the Handle end hooks inside the wire guides above the logo. Repeat this step to insert the Handle hooks on the opposite side of the Basket.

Step 2: Take the Basket lid and, with the hooks facing down, place the lid on top of the Basket with the hooks near the back. Slide the hooks over the top wire of the Basket and pull toward you until the lid hooks pop on to the Basket. When installed properly the lid will close completely and be secured by the lip of the lid.

PICKING UP BALLS

With the Basket sitting on the ground and the Handles in the up position, pick up the Basket by the Handles and place it down on top of the ball. With very little downward pressure, the ball will pop through the wires at the bottom of the Basket. Once balls are picked up, they will not fall out through the wires at the bottom.
